

# MARTIN AND THE GREEN GUITAR

Sustainability-focused assemblies written for grades K-6 aimed at promoting Common Core and STEM learning outcomes.

Sing along songs and ideas formed from environmental science and leading technologies, inspiring children to learn, engage, and work together in building a more sustainable future.

*"You absolutely captivated the kids and were able to touch many grade levels."* --  
David Thornley, Principal at Cabrillo Elementary School

With his new album, **Sustainable Stories and Singalongs**, Martin sets a new standard of catchy AND educational entertainment. With witty and memorable lyrics, intriguing stories, and science-based themes, children all over the Bay Area are singing along with Martin and his green guitar with a newfound love for their planet and a song to sing while they work towards preserving our precious Earth.
